

# Turkey Land Game Pieces

*Don't cut the middle fold line!*

*If you have cardstock paper use it your game pieces will be stronger.*

## Turkey Land Rules

*Players take turns drawing cards. If a player draws a card that has a color, that player must move their piece to the next space on the gameboard that has that color. If a player draws a card with two color blocks, that player must advance two spaces with that color. If a player draws a card with a picture, that player must go to the space with that picture, even if they have already passed that space! If a player lands on the space next to the river of gravy, they can take a shortcut. Whoever makes it to the dinner table first wins!*
